

After-Hours Access To Care

Alcona Health Center is dedicated to the health and well-being of our patients. We want to ensure you have access to quality care, no matter when you need us. Established patients can reach our **After-Hours Access to Care** line whenever the office is closed. This includes evenings, weekends and holidays.

To access care after-hours, simply call the location that you use and select option "8 for Access". You will be connected to an RN who will assess your symptoms and work with our team of healthcare providers to determine the best care option over the phone.
